TWO LIGHTFOOT LAWYERS NAMED 2020 TEXAS RISING STARS BY THOMSON REUTERS' SUPER LAWYERS

March 10, 2020

Lightfoot, Franklin & White LLC associates **Kaitlyn M. Faucett** and **Bradford J. Hendrickson** have been selected to the 2020 Texas Rising Stars list by *Super Lawyers*. Each year, no more than 2.5% of the lawyers in the state are selected by the research team at *Super Lawyers* to receive this honor.

Faucett was selected in the Civil Litigation: Defense practice group category and Hendrickson was recognized in Personal Injury Products: Defense.

"We congratulate both Kaitlyn and Bradford on this achievement," said Melody Eagan, Lightfoot's managing partner. "It recognizes not only their individual talents as exceptional lawyers but also the strength of our team in our growing Houston office."

Super Lawyers, part of Thomson Reuters, is a rating service of outstanding lawyers from more than 70 practice areas who have attained a high degree of peer recognition and professional achievement. The annual selections are made using a patented multiphase process that includes a statewide survey of lawyers, an independent research evaluation of candidates and peer reviews by practice area.

Faucett represents clients in a broad spectrum of business and commercial matters, both in the courtroom and arbitration, as well as through informal dispute resolution practices. She manages a diverse caseload spanning traditional business and commercial disputes, as well as employment, premises liability, fiduciary duty, healthcare and personal injury matters. Earlier in her career, Faucett served as in-house legal counsel for a boutique oil and gas company.

Hendrickson's practice focuses on high-stakes business and commercial litigation, as well as product liability and personal injury claims. He has litigated product defect cases involving towable equipment, motorcycles, automobiles, light trucks, heavy trucks, commercial vehicles and industrial and maritime equipment, as well as premises liability cases involving dangerous conditions. Hendrickson also spends a significant amount of time handling litigation for the oil and gas industry and has an active appellate practice.
