Ashlie Penton is a litigation support specialist at Lightfoot, Franklin and White.

Ashlie develops personalized visual aids and demonstratives to ensure juries and witnesses can understand and conceptualize exactly what occurred. She also creates case-specific slideshow presentations to support arguments, opening statements and closing statements.

Ashlie collaborates closely with Lightfoot lawyers during both trial and arbitration preparations. In the courtroom, Ashlie often creates graphics on the fly to help Lightfoot attorneys convey their points to juries. Ashlie has held a variety of titles at Lightfoot since joining the firm in 2001, but is happy to return to her original role working in litigation support.

Ashlie received her B.S. in graphic design from Auburn University. When she is not in the office, she enjoys exploring the Birmingham food scene, running, reading and spending time with friends and family.
